More

CoSound is a strategic research project funded by **Danish Strategic Research Council**, which investigates technological methods and tools for linking audio streams and user interaction data in order to improve interactivity and user experience.

The vision is to develop a flexible modular audio data processing platform for new products and services in the commercial sector; the public service sector; and in educational and cultural research. The project prototypes and evaluate solutions in all these areas.

An integral part of the project is a modular CoSound platform for development and test of algorithms and interactive experiments which has been employed in Refrain.

The CoSound partners **DTU Compute** and **Geckon ApS** has collaborated to create Refrain.

The team consisted of Peter Overgaard and Jesper Fyhr Knudsen, Geckon ApS. Bjørn Sand Jensen, Jens Madsen, Patrick Gadd, Martin Hastrup, Sune Lehmann Jørgensen, and Jan Larsen, DTU Compute.

For further information contact CoSound coordinator Jan Larsen, janla@dtu.dk

DANISH SOUND

Danish Sound Innovation Network functions as hub for businesses, research and knowledge institutions, and professional organizations in order to facilitate and contribute to creating value for the Danish national ecosystem for SOUND.

Danish Sound is funded by the **Danish Agency for Science, Technology and Innovation** and has more than 550 individual members from 320+ organizations.

One of the focus themes is Digital Media where Denmark has a position of strength and critical mass of activity in both research and businesses.

Danish Sound is an innovation partner of CoSound and assist with dissemination of results.

For further information, contact the secretariat at sekretariat@danishsound.org
